

Based in the North-East heartlands, Kovarts was founded to bring the arts to people from all walks of life, including the silver generation, young children, and special needs individuals. It has been designed to be a learning hub of arts related activities for the community.

Besides promoting physical fitness and cognitive development, Kovarts strives to bring social cohesion to the community serving as a communication tool between diverse groups. Arts have also been increasingly recognised for its therapeutic benefits, such as helping seniors navigate the challenges of ageing and to overcome loneliness.

Through effective dance, music and art therapy approaches, we hope to impact more lives for their long-term social, mental and physical well-being. This space brings together like-minded people to enjoy the ARTS, towards a more active, healthier, caring and inclusive Singapore.

OUR MURAL FACADE

*Designed by Skye Liu Tianzi
Brought to life with Soh Chye Ann,
in his late 60s, a self-taught artist*

A clean, vibrant stretch of colour that boldly introduces Kovarts and the many art forms to the community.

Inspired by rivers and rainbows, it hopes to represent different

creative journeys taking place alongside each other by people of all walks of life. The unique wall texture allowed for interesting colour play, and the inclusions make each shade more beautiful than by itself.

Altogether, it seeks to bring in a new, inclusive and positive energy to its surroundings.

Kovarts

AN ARTS LEARNING SPACE

OUR STORY

Kovarts is a member of the Crestar Education Group, which operates Crestar Learning Centres (CLC). CLC was established 45 years ago and belongs to one of the pioneers in the local arts industry.

CLC has been operating our dance, music and art enrichment classes in Kovan, Block 202, Hougang St 21 since 1984. Our journey with the life and buzz of the Kovan community goes all the way back to the 1980s where there was significant growth in Hougang. To date, we have grown our alumni to over 15,000 individuals, some of whom have become arts practitioners continually influencing and inspiring others with their passion for the arts.

CLC is now extending our reach, and we are passionate about contributing to the community as our social responsibility in promoting active engagement of stakeholders.

In a post-pandemic world, businesses play a significant role in the responsibility for environmental, societal and governance issues. We can be stewards of change for a liveable future.

PARTNERS

CRESTAR LEARNING CENTRE

Established since 1977 and led by trained professionals, Crestar's enrichment programmes have seen over 50,000 students to date.

With specially-designed creative and interactive enrichment programmes such as dance and art. Each programme is tailored to suit individual needs and interests, from the performing arts to language studies.

Crestar Learning Centre continually explores innovative teaching methods that enable students to maximise their learning potential.

DISTINCT CREATIVE ARTS

We use dance to instill values and develop character in our students, such as discipline, teamwork, respect, humility, and tenacity.

We connect with and empower youths-at-risk to nurture a strong sense of purpose and belonging within them by being a source of good influence.

We give our students different opportunities to stretch their potential through events such as dance camps, competitions, and performances.

ZOO-PHONICS

Zoo-phonics® is a multi-sensorial Language Arts method that has helped children around the world to become confident speakers, fluent readers and effective writers.

Created by award-winning teachers from USA, the Zoo-phonics® curriculum uses a whole brain approach that involves all of a child's senses to stimulate learning through creative play, hands-on activities, stories, drama, art, music and rhymes.

The Zoo-phonics® integrated approach effectively develops a young child's literacy skills and builds a foundation for learning across other subjects.

VISUAL ARTS

Imagine your child expressing themselves visually in a creative manner. Develop their fine motor and art skills, and unleash their creative talent by exposing them to a wide variety of media at our art lessons. They will be able to enjoy expressing themselves with confidence while enhancing their artistic abilities through our fun art classes!

PERFORMING ARTS

Cultivate poise, grace, rhythm and confidence in your child! Beyond these, the sensory experiences will enhance their physical, social and emotional development, while building mental focus, discipline and perseverance. Whether it's ballet, hip-hop, k-pop, or rhythmic gymnastics, exposing your child to the world of performing arts can lead to a lifetime's worth of benefits.

LANGUAGE ARTS

Boost your child's linguistic abilities through our accredited language arts classes! Designed to engage all five senses and pique their curiosity, we strive to sharpen their critical thinking and fuel creativity so that they grow up to be effective and empathetic communicators.
